

# SOCIAL RESPONSIBILITY

SAMWUMED has wisely invested in the setting up of two primary healthcare facilities for utilisation by members.

SAMWUMED has actively played a role in contributing towards public hospital appeals for the benefit of the community at large. To date, these included donations to TAC, donating vendor trolleys, Red Cross Children's Hospital for the new out-patients wing, and Groote Schuur Hospital for the purchase of a CT Scanner.

SAMWUMED has wisely invested in the setting up of two primary healthcare facilities for utilisation by its members. We provide quality healthcare at extremely affordable prices. Our dedicated and professional staff are all employed by the Scheme, and are therefore, solely motivated by providing you with the very best service. Utilisation of the SAMWUMED in-house facilities ensures that your benefit Rand goes so much further.
